Los Angeles, CA 90012

C: Ms. Linda Barth, Assistant General Manager

Regarding Public Records Act Request: PR062

Dear Ross Pool,

On January 26, 2008, a request for public records was made for any and all records and information on animal impound number **A925098**. I received a response from Linda Barth dated January 29, 2008 that included copies of a Kennel Impound Card and medical history for animal impound number A0925098.

Upon review of the information provided, the following discrepancies were found. The request asked for the Outcome Date, Outcome Type and Outcome Subtype as documented in Chameleon and while a determination might be inferred from the medical history provided, these data fields were specifically asked for and were either not provided or they are not clearly identifiable in the information packet she provided. Additionally, the Intake Subtype, Intake Condition, Collar Type, Color Color, Tag Type, Tag Number information as documented in Chameleon was not provided. Medical history information provided indicates 300mg of Doxycycline BID for 10 days was prescribed two days after the date of impound but no treatment cards were provided to verify this animal received medication twice a day as prescribed. Also, the response did not include any copies of activity, memos or ACO notes related to this animal as I had requested on line number 2.

Ms. Linda Barth's response stated that if I required additional information to please call you. This statement combined with the fact that information I have requested is missing from the response leads me to believe that I have not been provided "any and all records and information on animal impound number A925098".

Please provide any and all records and information for animal impound number A925098 as I have originally requested.

Regards,

A handwritten signature in black ink that reads "Bradley Jensen".
