Mr. Jensen,

I have reviewed your information request and have noted that it is similar to a request filed in fall of 2008, differing by the inclusion of some additional information fields and the date range. To generate that report, Animal Services IT staff dedicated time to the production of an data retrieval program resulting in a higher processing fee than other standard inquiries. However, that inquiry format was retained and could easily be adjusted to the date range you have specified. Generation of such a report could be accomplished under our normal information processing fee of \$15 dollars and would yield the requested data on Animal ID, Intake Date, Animal Type, Primary Breed, Intake Condition, Intake Type, Outcome, and Outcome Date.

In order to generate the additional information fields you have requested, a new retrieval program would need to be created at a cost of \$54.43 per hour; estimated production time is one hour total staff time.

Please advise which report format you would prefer and I would be glad to finalize your request.

Thanks,
E. Anderson
