Public Records Request - PR069

Brad Jensen <sheltertrak@gmail.com>

Thu, Oct 15, 2009 at 7:55 AM

To: Karen Ehnert <kehnert@ph.lacounty.gov>

Dear Karen,

I was directed to your office by Michael Mina, Custodian of Records for LA County Public Health, as the supervising agency regarding this issue. The four cats, impound numbers referenced below, were trapped following an LA County Public Health Department allegation of murine typhus in the subject felines.

As the LA County Department of Animal Care and Control records indicate, blood drawn for testing of these four cats was requested by the Public Health Department. LACDACC records also indicate the Public Health Department brought their own tiger top tubes. Under California Public Records Act, I am requesting the test results. If you are not the custodian of records for this information, please direct me to the proper authority.

Regards,

Brad Jensen
Cypress, CA
