**RE: Public Records Request PR081**

Dear Mr. Jensen:

The San Diego Humane Society and SPCA is a private, non-profit 501(c)3 organization, not a public agency subject to the California Public Records Act. The release of our records to the public is governed by the internal policies of the Society.

We have carefully reviewed and considered your request for records. As the request does not fall within our policy guidelines, we are unable to provide the records requested. We hope that you understand the important considerations which underlie our records release policies and require that we decline the request.

We look forward to continuing to serve the animal welfare needs of the community, and appreciate your interest in our work.

Sincerely,

***Elkie Wills***

Communications Coordinator
